- **Handy Tips and Guides**

- Refer [here](#) for handy Excel shortcuts.
- Here is the guide on how to install DBeaver for SQL on [Mac](#) and [Windows](#).
- [Here](#) is the guide on how to install Anaconda.
- [Here](#) is the guide on how to install PowerBI (Note - Mac users cannot install PowerBI in their laptop, the mentor will have to help in the class with a virtual machine option).
- Here is the guide on how to install Tableau Public on [Mac](#) and [Windows](#).

*Note : You don't have to download all of them immediately. We will guide you on when and how you need to do the same.*

- **Next Steps**

- Fill the [enrolment form](#) for smooth onboarding.
- Install all the softwares using the provided guides before classes commence.

- **Fee Payment Policy**

- You may refer [here](#) for the fee payment policy.

- **Support**

- For any questions or assistance, please reach out to us at [pm@skillcase.in](mailto:pm@skillcase.in) or +91-9731462667.

We're excited to support you through this journey and look forward to seeing your growth and achievements. Welcome aboard, and let's make this a transformative experience!
